

In addition to the intelligence ~~which~~ required before
a realistic attack on the ^{political} stability of the Soviet regime
can be undertaken, there is ^{a clear need for} need ~~to mobilize the available~~
~~planning~~ of a planning facility which will represent
the mobilization of the best talent planning talent available.
I will consult with the interested parties in the Departments of
State and Defense ~~and make~~ on this matter within the near future
and ~~make recommendations~~ give you my recommendations as to
the ~~make~~ composition ~~and~~ of such a facility and the authority
~~with which it should be given~~ to be given to it.

I am attaching a ^{general} statement of the problem ,
an Appendix setting forth initial intelligence requirements,
and a second appendix ~~setting forth~~ listing the names of private
individuals whom it would be worthwhile to speak. These intelligence
requirements will of course, have to be redefined from time to
time by the planning facility that is set up.
